Notes to Financial Statements

(Unaudited) September 30, 2020 and 2019

1 Nature of operations and use of the going concern assumption

Innovotech Inc. (the Company) is incorporated under the Business Corporation Act of Alberta. The primary activities of the Company are sales of its products, conducting contract research for outside customers and research and development to identify products for future commercialization. The Company's product is an assay used in growing microbial biofilms for research purposes. The Company is publicly traded and listed on the TSX Venture Exchange, and its registered office is in Edmonton, Alberta.

These financial statements have been prepared using International Financial Reporting Standards applicable to a going concern, which assumes that the Company will be able to realize its assets and discharge its liabilities and commitments in the normal course of operations for the foreseeable future.

2 Basis of preparation

The Company prepares its financial statements in accordance with Part I of the Handbook of the Canadian Institute of Chartered Accountants (CICA Handbook) which incorporates International Financial Reporting Standards as issued by the International Accounting Standards Board (IFRS).

These financial statements were approved by the Board of Directors for issue on November 12, 2020.

3 Significant accounting policies

There are no new or amended International Financial Reporting standards or interpretations that required adoption by the Company during the quarter.

4 Due to shareholder

The amount due to a shareholder of the Company consists of a \$100,000 line of credit which was repayable on demand and bears interest at 6% per annum. On July 15, 2019 the repayment terms were amended from being payable on demand to a stated repayment date on or after October 22, 2022. The amount has therefore been classified as a non-current liability. In response to the COVID-19 pandemic, the shareholder agreed to waive the interest payment for four months. On October 30, 2020 the Company repaid the outstanding balance on the line of credit.

5 Term loan

The term loan was accessed through the Canada Emergency Business Account ("CEBA"). The funds are part of the Government of Canada's support of corporations during the COVID-19 pandemic. The funds were used to fund non-deferable operating expenses during the quarter. The loan is non-interest bearing until December 31, 2022. Repaying the balance of the loan on or before December 31, 2022 will result in a loan forgiveness of \$10,000. Thereafter the loan will be converted into a three-year term loan at an interest rate of 5% per annum. Subsequent September 30, 2020 the Company repaid \$10,000 of the term loan.

Closing balance	38,274,612	7,563,397	36,239,612	7,344,818

The Company completed a private placement on September 2, 2020 under which 1,875,000 Units were issued at a price of \$0.20 per Unit for gross proceeds of \$375,000. Each Unit is comprised of one (1) common share and one half (1/2) common share purchase warrant. Each full warrant entitles the holder to purchase one (1) additional common share at a price of \$0.25 per common share for a period of three (3) years following the date of closing. Issuance cost of \$8,878 resulted in net proceeds of \$366,122 of which \$159,543 were attributed to warrants.

b) Stock options

The Company has an incentive stock option program (the Program) pursuant to which the Board of Directors of the Company may allocate non-transferable options to purchase common shares to directors, officers, employees and consultants of the Company. The aggregate number of common shares that may be available for issuance from time to time under the Program is not to exceed ten (10%) percent of the number of common shares issued and outstanding in the capital of the Company, calculated on a fully diluted basis. Options granted under the Program must have an exercise price not less than the market value of the common shares (less any permissible discount) at the grant date and vest over a period of one year as resolved by the Board of Directors. These options are exercisable for a period of up to ten years from the date of grant, unless otherwise resolved by the Board of Directors. For purposes of the option pricing model, expected volatility is calculated based on the most recent historical period equal to the option's expected term.

The Company recognized stock-based compensation expense of \$nil for the nine months ended September 30, 2020 (2019 – \$5,771).

2019 transactions

On January 29, 2019, the Company granted to certain employees 36,000 stock options at an exercise price of \$0.05 with an expiry date of January 29, 2024. These stock options vest on January 29, 2020. The estimated fair value of these options is \$0.0696 per option and has been determined using the Black-Scholes option pricing model with the following assumptions:

10 Subsequent events

On October 16, 2020, the Company agreed to acquire a debenture in a private corporation with a face value of \$150,000, bearing interest at 8% per annum. The debenture is convertible into 120,000 common shares of the private corporation. The purchase price will be paid by issuing 625,000 common shares at a deemed value of \$0.24 per share, the closing price on the TSX-V on October 15, 2020. The debenture is proposed to be acquired from a significant shareholder of both the Company and the private corporation. The transaction is subject to regulatory approval, and subject to the related party exemptions contained in Multilateral Instrument 61-101.
